Session: 2020-2021 | Percentage: 67%

TRAINING & PROJECTS

Placement-AI-Tracker | Developer

Duration: 6 weeks

Environment: Windows

Languages/Database: React.js, Node.js, MongoDB, GitHub

Team Size: Individual

. Placement AI Platform is a full-stack web application developed using the MERN stack (**React.js, Node.js, Express.js, and MongoDB**) to streamline the campus placement process. The platform enables students to manage profiles, track job applications, analyze resumes, monitor placement progress through interactive dashboards, and manage company opportunities. It features secure JWT authentication, RESTful APIs, responsive UI, analytics, and cloud deployment using Vercel, Render, and MongoDB Atlas.

Shopping Mart | Developer

. Mart is a full-stack e-commerce web application that allows users to browse products, add items to a cart, authenticate with a secure login system, and view their order history.

Resume Builder Web Application | Python Full Stack

Developed a web app using Flask, HTML, CSS, and MySQL that enables users to create and download customized resumes as PDFs. Implemented form validation, template rendering, and database integration for user data storage.

ACADEMIC ACHIEVEMENT

- Secured 5th position in Coding quest in the event Zest-offiesta held at CGC Landran in 2026.
- Secured 7th Position in National science day project display held at CGC Landran in 2025.

CERTIFICATIONS

- Cyber Job Simulation by Deloitte
- Digital Edge 101 course from NASSCOM
- AWS certification in data engineering

EXTRA CURRICULAR & CO-CURRICULAR ACHIEVEMENTS

- 2nd Prize Winner – Relay Race | National Sports Meet, CGC Landran (2026).
- Recognized with 6th Position for outstanding performance in the Gidda Competition at Teej Festival 2025, CGC Landran.
